All bus drivers are certified in the administration of First Aid, CPR, and Epi-Pen. These are the only medical procedures a driver may perform. In the event of a student showing signs of medical distress during travel on the school bus, the driver will stop the vehicle in the first safe location, assess the situation, determine if an epi-pen needs to be administered, immediately contact the Bus Operator to request emergency services. The driver will remain with the student until the arrival of the emergency services team. Should a bus driver have occasion to administer First Aid, CPR, or an Epipen, he/she does so in applying the "in loco parentis" principle, not as a health care professional. Visit triboard.ca for complete procedure details. (Triboard)

☐ No

School Bus Driver/Route # (If Applicable)

□Yes □ No

☐ Yes

I consent to the disclosure and use of the personal information collected herein to persons, including persons who are not the employees of the Limestone District School Board through the posting of photographs and medical information of my child (Plan of Care/Emergency Procedures) in the following key locations:
