TYPE 1 DIABETES SUPPORTS		
Names of trained individuals who will provide support with diabetes-related tasks: (e.g. designated staff or community care allies.)		
Method of home-school communication:		
Any other medical condition or allergy?		

## DAILY/ROUTINE TYPE 1 DIABETES MANAGEMENT Student is able to manage their diabetes care independently and does not require any special care from the school. □ No ☐ Yes ☐ If **Yes**, go directly to page five (5) — Emergency Procedures ROUTINE **ACTION BLOOD GLUCOSE** Target Blood Glucose Range \_\_\_\_\_ MONITORING Time(s) to check BG: ☐ Student requires trained individual to check BG/ read meter. ☐ Student needs supervision Contact Parent(s)/Guardian(s) if BG is: to check BG/ read meter. Parent(s)/Guardian(s) Responsibilities: ☐ Student can independently check BG/ read meter. ☐ Student has continuous School Responsibilities: glucose monitor (CGM) \* Students should be able to check blood glucose anytime, anyplace, respecting their Student Responsibilities: preference for privacy. **NUTRITION BREAKS** Recommended time(s) for meals/snacks: ☐ Student requires supervision Parent(s)/Guardian(s) Responsibilities: during meal times to ensure completion. School Responsibilities:\_\_\_\_\_ ☐ Student can independently manage his/her food intake. ★ Reasonable accommodation must be made to allow student Student Responsibilities: to eat all of the provided meals and snacks on time. Students Special instructions for meal days/ special events:\_\_\_\_\_ should not trade or share food/snacks with other students.

ROUTINE	ACTION (CONTINUED)		
INSULIN	Location of insulin:		
<ul><li>☐ Student does not take insulin at school.</li><li>☐ Student takes insulin at</li></ul>	Required times for insulin:		
school by:  Injection Pump	☐ Before school:	☐ Morning Break:	
☐ Insulin is given by: ☐ Student ☐ Student with supervision ☐ Parent(s)/Guardian(s) ☐ Trained Individual	□ Lunch Break: □ Afternoon Break: □ Other (Specify): □ Parent(s)/Guardian(s) responsibilities: □ School Responsibilities: □		
* All students with Type 1 diabetes use insulin. Some students will require insulin during the school day, typically before meal/nutrition breaks.	Student Responsibilities:Additional Comments:		
ACTIVITY PLAN  Physical activity lowers blood glucose. BG is often checked before activity. Carbohydrates may need to be eaten before/after physical activity. A source of fast-acting sugar must always be within students' reach.	Please indicate what this student must do prior to physical activity to help prevent low blood sugar:  1. Before activity:  2. During activity:  3. After activity:  Parent(s)/Guardian(s) Responsibilities:  School Responsibilities:  Student Responsibilities:  For special events, notify parent(s)/guardian(s) in advance so that appropriate adjustments or arrangements can be made. (e.g. extracurricular, Terry Fox Run)		

ROUTINE	ACTION (CONTINUED)
DIABETES MANAGEMENT KIT	Kits will be available in different locations but will include:
Parents must provide, maintain, and refresh supplies. School must ensure this kit is accessible all times. (e.g. field trips, fire drills, lockdowns) and advise parents when supplies are low.	<ul> <li>□ Blood Glucose meter, BG test strips, and lancets</li> <li>□ Insulin and insulin pen and supplies.</li> <li>□ Source of fast-acting sugar (e.g. juice, candy, glucose tabs.)</li> <li>□ Carbohydrate containing snacks</li> </ul>
SPECIAL NEEDS	Comments:
A student with special considerations may require more assistance than outlined in this plan.	

## **EMERGENCY PROCEDURES** HYPOGLYCEMIA – LOW BLOOD GLUCOSE (4 mmol/L or less) DO NOT LEAVE STUDENT UNATTENDED Usual symptoms of Hypoglycemia for my child are: ☐ Shaky ☐ Irritable/Glouchy ☐ Blurred Vision ☐ Headache ☐ Confused ☐ Dizzy ☐ Trembling ☐ Hungry ☐ Weak/Fatigue ☐ Irritable/Grouchy ☐ Other Steps to take for Mild Hypoglycemia (student is responsive) 1. Check blood glucose, give \_\_\_\_ grams of fast acting carbohydrate (e.g. ½ cup of juice, 15 skittles) 2. Re-check blood glucose in 15 minutes. 3. If still below 4 mmol/L, repeat steps 1 and 2 until BG is above 4 mmol/L. Give a starchy snack if next meal/snack is more than one (1) hour away. Steps for <u>Severe</u> Hypoglycemia (student is unresponsive) 1. Place the student on their side in the recovery position. 2. Call 9-1-1. Do not give food or drink (choking hazard). Supervise student until emergency medical personnel arrives. 3. Contact parent(s)/quardian(s) or emergency contact. **★**School personnel are not responsible for treating severe low blood glucose with glucagon. Where necessary, arrangements will be made at the school to safely store an accessible supply of glucagon. HYPERGLYCEMIA — HIGH BLOOD GLOCOSE (14 MMOL/L OR ABOVE) Usual symptoms of hyperglycemia for my child are: ☐ Extreme Thirst ☐ Hungry ☐ Frequent Urination ☐ Abdominal Pain ☐ Headache ☐ Hungry ☐ Blurred Vision ☐ Warm, Flushed Skin ☐ Irritability ☐ Other: \_\_\_\_\_ Steps to take for Mild Hyperglycemia 1. Allow student free use of bathroom 2. Encourage student to drink water only 3. Inform the parent/guardian if BG is above Symptoms of Severe Hyperglycemia (Notify parent(s)/guardian(s) immediately) ☐ Rapid, Shallow Breathing ☐ Vomiting ☐ Fruity Breath Steps to take for Severe Hyperglycemia 1. If possible, confirm hyperglycemia by testing blood glucose 2. Call parent(s)/guardian(s) or emergency contact

## **HEALTHCARE PROVIDER INFORMATION (OPTIONAL) Healthcare provider may include**: Physician, Nurse Practitioner, Registered Nurse, Pharmacist, Respiratory Therapist, Certified Respiratory Educator, or Certified Asthma Educator. Healthcare Provider's Name: Profession/Role: Signature: Date: If medication is prescribed and will be administered at school, it is necessary to complete the following documents: 1) Form 314-A1, "Administration of Medication/Medical Procedures to Students" 2) Form 314-A2, :"Authorization and Request Form for the Administration of Prescribed Medication" Are Forms 314-A1 and Forms 314-A2 required for this student? □ No **TRANSPORTATION** Plan for Student Transportation Individual Student Boarding Individual Student Securement Individual Student De-Boarding

School Bus Driver/Route # (If A	.pplicable)		
Other:			
All bus drivers are certified in the administration of First Aid, CPR, and Epi-Pen. These are the only medical procedures a driver may perform. In the event of a student showing signs of medical distress during travel on the school bus, the driver will stop the vehicle in the first safe location, assess the situation, determine if an epi-pen needs to be administered, immediately contact the Bus Operator to request emergency services. The driver will remain with the student until the arrival of the emergency services team. Should a bus driver have occasion to administer First Aid, CPR, or an Epipen, he/she does so in applying the "in loco parentis" principle, not as a health care professional. Visit triboard.ca for complete procedure details. (Triboard)			
I consent to the disclosure and use of the personal information collected herein to persons, including persons who are not the employees of the Limestone District School Board through the posting of photographs and medical information of my child (Plan of Care/Emergency Procedures) in the following key locations:
